SYNC: Sync the glove and embedded Bluetooth® Module to your phone the same way you pair any other Bluetooth device.

LOCK / UNLOCK: To unlock, tap the power button. Tap the power button again to lock. The glove automatically locks 10 seconds after the most recent action.

ROCK ON!

BEFORE YOU RIDE - PRACTICE WITH YOUR GLOVES

TALK:

CHECK to be sure the glove is unlocked by briefly pushing the power button.

ANSWER by tapping and releasing the thumb pad to top index finger touchpoint once. Note: there may be a several second delay to hear audio after a call is answered. DO NOT press the touch point again or you will hang up the call. Sometimes the device display doesn't keep up with the signal.

DECLINE the call by holding the thumb pad to the top index touchpoint for 2 seconds.

HANG UP an ongoing call by tapping the thumb pad to the top index touchpoint once.

PLAY:

START a playlist.

CHECK to be sure the glove is unlocked by briefly pushing the power button.

PLAY/PAUSE by tapping thumb pad to top touchpoint on index finger.

FAST FORWARD by tapping thumb pad to top touchpoint on middle finger.

SKIP TRACK BACK by tapping thumb pad to bottom touchpoint on middle finger.

REWIND press and hold thumb pad to bottom touchpoint on middle finger until you hear track rewinding. Release when finished.
